NEWS FOR THE FRENCH MAIL.

EXTENSIVE FIRE AT MESSES. BLACKHEAD & CO'S.

Gold & Silver Medals & Diplomas.

A somewhat extensive fire occurred at Mesera Blackhead & Co.'s on the evening of the 9th inst. Shortly before half-past eight, smoke was noticed issuing from the godowns belonging to that firm, which face the piece of waste land where the new wing of the Hongkong Hotel is to be built. The first to remark this were some of the boys and guests in the Ladies' dining room of the Hotel, through the windows of which room the smoke was driven in. The smoke quickly increased in density and a few minutes afterwards the alarm was roug from the Clook Tower and Central Station. The godown in which the fire originated contained large quantity of Manila rope, tarred rope, and oil, and fed by this inflammable material the flames quickly spread. The Brigade arrived a few minutes after the slarm was given, followed shortly by three engines. The doors of the godown were broken in and a plentiful supply of water was soon being poured on the flames In addition to the three entines a bose was attached to Mesers. Blackhord & Co.'s launob which was brought alongside the Praya wall, and was atilised to pump water into the godown; Such a hold, however, had the flames got, owing to the nature of the material that first caught, that, for a considerable time little or no headway could be made, against the spread of the fire. Close to the godown is the store room of the Hongkong Hotel, containing thousands of dollars' worth of stores, and much enziety was felt for its safety. A couple of hoses were led through the Hotel and up a staircase at the back and from a window there played upon the godown. Fortunately the spread of the flames in the direction of the storeroom was checked and it escaped untouched Not so fortunate however, was the store of Messrs, Blackhead & Co. which adjoins the godown. The fire quickly spread to this store, bil ed with ship-chandlery of all descriptions, and the stock that escaped destruction by fire was almost as much damaged by the heavy volumes. of water poured into the store. Above the store are the offices of Messrs, Melohers & Co. The employees of the firm were on the spot soon after the alarm and having gained access to the office by means of a ladder, managed to remove the books, do While engaged in this work they noticed that the fire was coming through the floor of the office and immediately gave the alarm to those below. A hose was at once run up and the slightly during the week, having been done @ flames here extinguished. The night was dark, the ferryboat too far from the shore, and some of the men fell into the water, and one at least was drowped. The constable of the Techan side reported to bu magistrate that the Enhsien mon had out their bank. All communication between the two sides of the river at this important point, where a fair is held twice in ten days, was interrupted no one daring to go to the other side. Even travellers were unable to get over. It is reported that the district magistrate made an inspection of the spot, and held an inquest over the dead, and it is certain that within a short time after this, a broad gap opened in the causi bank, so as to let the water from the plain into the river.
